FREE RECLINING CHAIR CARS.

"The Henderson Route"—Always First. The traveling public will be pleased to learn of the latest innovation in the way of comfort in travel for its patrons which is now being offered by that most popular railroad, the "Henderson Route," which road has been rightly termed the "Kentuckian's Official Route to the West and Southwest."

It has just been announced from the general office of the Louisville, Henderson & St. Louis Railway that they now have in service on their night trains between Louisville and St. Louis, Free Reclining Chair Cars, which have just been received from the shops and are a revelation in the car building art.

The cars are strictly up-to-date, first-class "palaces of travel" on wheels, and this is only one of the many surprises which are promised the public for the World's Fair travel by the Henderson Route.

Among other advantages offered in these highly finished cars, a few of the most important points only are mentioned:

They are solidly vestibled and are furnished with sixty-four reclining chairs, which are upholstered in beautiful green plush, in addition to smoking and toilet rooms, the smoking rooms being finished throughout in leather. They are also fitted with triple trucks, which feature will do away with the jerk, jar and strain incident to travel in the ordinary railway coach, and insures a smooth, comfortable ride. This should prove more than a popular feature in train service to the traveling public, and you can only suggest that in traveling you "get the Henderson Route" habit.

THE POST OFFICE BILL.

Measure Reported to the Senate by the Committee.

Rural Mail Carriers Permitted to Carry Merchandise and Newspapers So Long as It Does Not Interfere With Their Duties.

Washington, March 30.—After two days' consideration of the post office appropriation bill the senate committee reported it Tuesday night and it was taken up in the senate Wednesday. The bill reported does not include all the amendments made by the senate committee on account of the late session in order to complete a measure. A "dummy" bill was reported while the clerks prepared the measure for the public printer. On account of its incomplete state the exact amount of the increase made can not be given, though it is said the bill will carry not more than \$1,000,000 over the bill as passed the house except for an emergency measure incorporated in the bill. The house bill provides for the rental of the Pennsylvania railroad site in New York city for post office purposes, but the senate committee decided that it would be better business policy to buy the site. Therefore, an appropriation of \$2,000,000 is made for that purpose.

Among the important amendments to the bill are the following: The salaries of rural free delivery carriers are fixed at \$720 a year and the carriers are permitted to carry merchandise for hire and receive subscriptions for and deliver newspapers and periodicals so long as this occupation does not interfere with the proper discharge of their duties. It is stipulated, however, that the carriers shall not discriminate against any newspaper, which desires to avail itself of the privilege of employing them. Senator Clay's amendment increasing the salary of the purchasing agent for the post office department to \$4,500 and requiring that all supplies must be bought by competitive bids, the contracts to be given to the lowest bidder and that a schedule of the bids must be sent to congress annually, was adopted.

The committee adopted an amendment for the retransfer of the free delivery in cities to the first assistant postmaster general's division, instead of leaving it with the fourth assistant. The senate committee provides for the purchase or rental of cancellation machines instead of purchase alone, as provided by the house bill.

Provision for the payment to the Oceanic Steamship Co. at a rate of \$1 per mile for the carrying of mail between San Francisco and Tahiti was restored to the bill. This provision has been in the post office appropriation bills for a number of years but was eliminated by the house at this session on the ground that it was in the nature of a subsidy. The senate committee has restricted the payments to \$45,000 annually.

WAS JUSTICE FOR SEVEN YEARS.

Now It Is Discovered He Is Not a Citizen of the United States.

Kenosha, Wis., March 30.—After presiding as a judge over a justice court for seven years, hearing cases brought for trial, solemnizing marriages and attending to all the duties of a justice, William Evans, of the town of Halem, in this county, discovered Tuesday morning that he was not a citizen of the United States and that all of his acts were void. The justice came to this country from England when he was 23 years old, but it was discovered Tuesday that he never took out his naturalization papers. In order to legalize his acts as a court official it will be necessary for the state legislature to pass a bill.

ARMY CHAPLAINS.

Bill, Proposed Providing For a Higher Rank For Them.

Washington, March 31.—President Roosevelt and Representative Hull, chairman of the military affairs committee of the house, Wednesday discussed a bill which provides a higher rank for the army chaplain in which the president is interested. It is held that insufficient provision is not made in the present law for rewarding army chaplains for meritorious services. During the Spanish-American war several chaplains were recommended for gallantry, but it was impossible to give them the reward. The war department favors legislation to increase the rank and pay of chaplains.

The Michigan Floods.

Detroit, Mich., March 30.—Five lives have been lost and probably upwards of \$5,000,000 worth of damage to property has been done by the flood which has devastated many parts of Michigan during the past five days. Tuesday night the indications were that the end is in sight, although conditions are still very bad at Grand Rapids and along the course of the Saginaw river.

Will Make the Principal Address.

Pittsburg, March 30.—Board of trustees of the Carnegie institute received a cablegram from Rt. Rev. John Morley, distinguished British author and statesman, accepting the invitation to make the principal address at the founders' day exercises.

Price of Coal Reduced.

Philadelphia, March 30.—The Philadelphia & Reading Coal & Coke Co. Tuesday issued a circular to all coal dealers in Philadelphia and along its lines reducing the price of domestic sizes of anthracite coal 50 cents.

IMMIGRATION LAW.

Bill Introduced in the Senate to Amend the Act of 1903.

Washington, March 31.—Senator Dillingham introduced a bill Wednesday to amend the immigration act of 1903. It permits aliens to pass in continuous transit from one point in foreign contiguous territory to another point in foreign contiguous territory, through the United States without payment of head tax. Aliens having once paid the head tax may pass through foreign contiguous territory in continuous transit and again enter the United States without payment of the tax. The privilege under the act of 1903 permitting an alien to send for a relative or friend is amended to restrict the privilege to relatives. It is provided that there shall be at least one inspector of immigration and one surgeon of the United States public health and marine hospital service assigned to each principal alien embarkation for the United States to inspect aliens intending to seek admission to the United States, such officers to be designated as members of the United States consular service at the ports to which they are assigned, but to be under the control of the commissioner general of immigration and the secretary of commerce and labor.

DESECRATING THE FLAG.

Secretary of Western Federation of Miners Arrested on That Charge.

Denver, Col., March 31.—William D. Haywood, secretary of the Western Federation of Miners, was arrested here Wednesday on a charge of desecrating the flag. He was released by Justice Hynes on a \$300 bond and the case set for April 2. The warrant on which the arrest was made was served before Sheriff Rutal arrived from Telluride with a warrant charging the same offense, the purpose being to foil the attempt to remove Haywood to Telluride, where he would be liable to be held a prisoner by the military indefinitely.

The charge of flag desecration made against President Moyer and Secretary Haywood is based on the issuance of a dodger by the Western Federation of Miners signed by two officers. The background is a picture of a United States flag and it is headed "Is Colorado in America?" On the stripes are short sentences commenting in sarcastic language on the policy of the governor and the militia.

A PARTY OF HAIRY AINUS.

They Are on Their Way to the St. Louis Exposition.

Victoria, B. C., March 31.—The Canadian Pacific steamer Empress of Japan arrived from Yokohama Wednesday. Among her passengers was a party of Hainu Ainus from the island of Hokkaido, in charge of Prof. Fred Starr, lecturer in the department of anthropology at the University of Chicago. He is to be in charge of that department at the St. Louis exposition. The men are small but well proportioned and have long beards and intelligent faces. The women are handsome and dress in gaudy costumes.

WARSHIPS AT ST. LOUIS.

Two Will Arrive There From Pensacola About April 23.

St. Louis, March 31.—A letter was received Wednesday by Mayor Wells from Commander John Hubbard, of the gunboat Nashville, now at Pensacola, Fla., saying that he had been authorized to announce to the authorities at St. Louis that the navy department had decided to send a torpedo boat destroyer to St. Louis under escort of the Nashville. The warships will reach St. Louis about April 23, but it is not known how long they are to remain here.

PUBLIC LANDS.

House Committee Orders a Favorable Report on Two Bills.

Washington, March 31.—The house committee on public lands Wednesday authorized a favorable report on a bill permitting the use of lands in forest reserves available for agricultural purposes. Favorable action also was taken on a bill providing that no entry shall be made on lands released and excluded from a forest reservation until 60 days after such exclusion proclamation by the secretary of the interior.

Alleged Embezzler Surrenders.

San Francisco, March 31.—Geo. Burton surrendered himself to the police Wednesday saying that he was wanted in Lucas county, Ohio, on a charge of embezzlement of \$1,100 of the county's funds. He was formerly county clerk and says he left Toledo on October 27, coming direct to San Francisco.

Passes For Live Stock Shippers.

Chicago, March 31.—The traffic officials of the western railroads have decided to renew the request of the Live Stock association for the resumption of passes to live stock shippers.

King Christian's Birthday.

Copenhagen, March 31.—King Edward and Queen Alexandra arrived here Wednesday to attend a family gathering on the occasion of King Christian's 86th birthday. They were received at the railway station by all the members of the royal family.

Appointed as Military Secretary.

St. Louis, March 31.—The appointment of Col. Edmund Rice, U. S. A., retired, as military secretary of the ceremony's committee of the World's fair, was announced Wednesday. Col. Rice is a native of Massachusetts.

GLOOMY PROSPECTS.

Illinois and Iowa Operators and Miners Can't Agree.

It Is Probable That the Mine Owners in Both States Will Close Down the Mines Until the Matter Is Settled.

Springfield, Ill., March 31.—The prospect for the closing of all the coal mines in Illinois seemed grave Wednesday night. The joint scale committee report Wednesday afternoon to the joint state convention that all the important differentials in the state had been adjusted with the exception of the first, or northern third vein district of Illinois, and the new mines in Saline and Franklin counties. A motion to leave the settlement to the operators and miners of the district affected was defeated.

The miners of the northern district demand that the old rate of 82 cents for straight and the third vein mines and of 87 cents for Wilmington, including the long wall mines at Cardiff and the Bloomington thin vein, be retained; while the operators insist that the three cent reduction, provided for by the Indianapolis agreement, be enforced.

The operators Wednesday night stated that if the miners would not agree to the reduction which the national organization of miners by a popular vote had voted to accept, it was very probable they would close down their mines at midnight Thursday night when the old scale ceased to be of effect.

Des Moines, Ia., March 31.—A committee of five miners and five operators, appointed by the joint scale committee, reported to the joint conference Wednesday that the scale committee can not agree, also explaining the points of difference. The joint conference is deliberating on the report. Leading operators say there can be no other alternative now than to shut down the mines throughout Iowa. Until within a few days ago the only difference between the miners and operators was the question of wages in districts No. 1 and 4, the miners contending for a higher scale than the operators would agree to pay. Now the miners demand a decrease in the price of powder and this has served to further augment the difficulty.

The sub-committee appointed by the Iowa miners to consider the strike situation Wednesday night agreed to disagree and so reported Thursday morning. The present contract with the operators expires Thursday, and with no other agreement, a general shutting down is inevitable. There seems to be one chance in a hundred that the conference will again take up the question and come to an agreement. There are about a million tons of coal in storage, while the railroads have a considerable supply. The miners have from \$70,000 to \$80,000 in their strike fund and enough to last about six weeks. Thirteen thousand five hundred miners will go out.

UNITED STATES WARSHIPS.

The Largest Fleet Ever Assembled in Times of Peace.

Pensacola, Fla., March 31.—With the arrival here Wednesday of the gunboats Newport and Castine from Colon, the largest fleet of United States warships ever assembled in times of peace is gathered here. The combined fleet engaged in target practice includes seven battleships, five cruisers, seven gunboats, three monitors, two torpedo boat destroyers, besides a number of tenders, colliers and supply boats. The fleet includes more than 25 vessels of various classes. The battleship Alabama has established a new world's record for rapidity and accuracy in firing all classes of her guns. She came into port Wednesday after a week spent at the target range and her officers report that her record is much better than that of the Kearsarge, made last week. The percentage is being worked out by the target inspectors.

UNION LABOR ACTS.

They Will Protest Against Presence of Troops in Mining Districts.

Cleveland, O., March 31.—At Wednesday night's meeting of the United Trades and Labor Council, representing all the union labor of this city, a movement was begun to circulate petitions throughout the United States to be sent to the president and to the congress protesting against the presence of troops in the mining districts of Colorado. It is expected that when the matter comes to the federal authorities 400,000 names will be attached to the petition.

Negro Candidate For President.

East St. Louis, Ill., March 31.—W. T. Scott, a Negro, has announced that preparations have been completed for a national convention for the nomination of a Negro candidate for president. The convention will be held in St. Louis July 6.

Appointed Adjutant of His Regiment.

Washington, March 31.—A cablegram from India brings news of the appointment as adjutant of his regiment of Capt. H. M. Durand, Ninth Lanciers, the son of Sir Henry Mortimer Durand, British ambassador at Washington.

Died While Singing a Song.

Duluth, Minn., March 31.—John Laury, a pioneer citizen of Hibbing, dropped dead Wednesday night of heart disease. While singing a song he recoiled and fell, expiring almost instantly.

HADN'T THOUGHT OF THAT.

There Were Obstacles to the Free Movement of Doors That Opened Outward.

There was a man who had read that it was safer to make the doors of all houses open outward instead of inward, says the Chicago Tribune.

He remembered it, and when he built a house of his own he had all the outer doors hang in accordance with that idea.

One bright morning in March he moved into his new home.

Late in the evening of the same day it began to snow, and it kept on snowing until the ground was covered a foot deep.

Then the wind blew and piled the snow in drifts.

After which it began to rain.

The rain later turned to sleet and the mercury sank 20 degrees.

And the next morning the neighbors were astonished beyond measure at the sight of a frenzied man with his head thrust out of a second story front window of that house, gesticulating wildly to a boy on the sidewalk and begging him for heaven's sake to go and call the fire department and have the ice and snow blasted away from his doors so he could open them and get out of the house!

A Wonderful Discovery.

Broadland, S. Dak., March 28.—Quite a sensation has been created here by the publication of the story of G. W. Gray, who after a special treatment for three months was prostrate and helpless and given up to die with Bright's Disease. Bright's Disease has always been considered incurable, but evidently from the story told by Mr. Gray there is a remedy which will cure it, even in the most advanced stages. This is what he says:

"I was helpless as a little babe. My wife and I searched everything and read everything we could find about Bright's Disease, hoping that I would be able to find a remedy. After many failures my wife insisted that I should try Dodd's Kidney Pills. I praise God for the day when I decided to do so, for this remedy met every phase of my case and in a short time I was able to get out of bed, and after a few weeks' treatment I was a strong, well man. Dodd's Kidney Pills saved my life."

A remedy that will cure Bright's Disease will cure any lesser Kidney Disease. Dodd's Kidney Pills are certainly the most wonderful discovery which modern medical research has given to the world.

Willfully Misunderstood.

Miss Butte—He said he knew I'd take a lovely picture.

Miss Chellus—Of course. All you have to do is to pick out something nice to snap and hold the camera steady.—Philadelphia Ledger.

For \$1.65 Money Order

The John A. Salzer Seed Co., of La Crosse, Wis., will mail postpaid 15 trees, consisting of Apples, Peaches, Plums, Cherries, Plums, Peaches and Pears, just the thing for a city or country garden, including the great Bismark Apple, all hardy Wisconsin stock, and all these are sent you free upon receipt of \$1.65.

FOR 16c AND THIS NOTICE

Make Lazy Liver Lively

You know very well how you feel when your liver don't act. Bile collects in the blood, bowels become constipated and your whole system is poisoned. A lazy liver is an invitation for a thousand pains and aches to come and dwell with you. Your life becomes one long measure of irritability and despondency and bad feeling.

CANDY CATHARTIC

Cascarets

WORK WHILE YOU SLEEP

Act directly, and in a peculiarly happy manner on the liver and bowels, cleansing, purifying, revitalizing every portion of the liver, driving all the bile from the blood, as is soon shown by increased appetite for food, power to digest it, and strength to throw off the waste. Beware of imitations! 10c., 25c. All druggists.
